Colossus
Jocko
Judah
Binti Jva
Tuff & Nuff
Cold War

A Quote from a recent letter to Show Stopper Kennels:

Dear Richard,

Enclosed are some photos taken of Kylo around his first birthday (10/96). As you can see, he has developed rather nicely. In the photos his weight is about 145 lbs. The photo where Kylo is jumping is particularly impressive when you consider that I am 6'3" tall. Presa's are very athletic for such big dogs!

Sincerely,

Jim McNairy
10028 Sierra Glen Way
Sacramento, Ca 95827

PS. am interested in purchasing a female Presa from a spring 1997 breeding.

Kylo is out of S.S. Calybos X S.S. Medusa

Oranjestad, Aruba, November 25, 1996

Another letter from a happy Presa owner, E.A. Jospheha. Here is a quote from the letter:

Mr. Kelly,

Last year around this time we were waiting for a dog and I was constantly bothering you concerning the arrival date of the then puppy.

Enclosed are two pictures of this now giant baby called Ginger. What do you think of her? We think she is great. We have four more dogs (Belgian Malinois, American Pitbull, Rottweiler and Chinese Shar pei), all bitches and Ginger stands out when all five are together. She is somewhat spoiled and demands plenty of attention, but we like it that way. We are so happy with her and wanted you to see how we take care of our dog. We hope you are just as proud of her as we are.

Best wishes for the season to you and your family.

Ginger is the littermate to Kylo, another S.S. Calybos x S.S. Medusa get. Ginger weighs 130 lbs. at fourteen months.

Another Island Report: LiHue, Hawaii Ben Salud reports his male Presa (another littermate to Kylo and Ginger) stands 31" tall and weighs 170 lbs. The dog has not lost any of its athletic ability Rudy Salud's nine-month-old Presa female weighs in at 120 lbs. She is out of S.S. Posidon X S.S. Cassiopia.

Torn Robinson of Sangus, MA writes: I've been meaning to send you some pictures of Logan (Nuckles). At protection he is unbelievable!!! Hands down the best dog I've ever been owned. Just wanted to thank you and let you know doing business with you was great and I hope to do it again. A nice female pup perhaps! Nuckles is a mere 151 lbs.

Thanks.

Tom also promised to send a video of Nuckles K-9 performance.

Thailand We've just received reports that S.S. Blaze of Fairtex Kennels has whelped the first litter of Presa Pups in Thailand. The sire is S.S. Calybos.

Show Stopper Kennels: We are proud to boast about our wonderful stud dog S.S. Mufasa (Balu), is now the most pointed male Presa in all the Americas. He is championed in the American Rare Breed Association, the Federation of International Canines, the States Kennel Club, the International S.K.C., the National Breed Club and qualifies as a Grand Champion as well as earning his T.T. (temperament test) title. He is also three points shy of a Canadian Championship. All this achieved before the age of two years. He has already sired two litters, the first with S.S. Medusa and now (1/5/97) with S.S. Elektra (Lexus).

Additionally, Show Stopper Kennels has the most pointed female in all the Americas namely: ARBA A1CH, FIC, NPCC, Grand Ch. S.S. Medusa, T.T.
